Course analysis, HT2024

Course analysis carried out by:

Milan Horemuz, horemuz@kth.se

DESCRIPTION OF THE COURSE EVALUATION PROCESS

Interview the student directly after the oral examination.

COURSE DESIGN

Since there was just one student, the course was given most on self-study basis with regular consultations. The lab and project work was also adapted, so that the data collected by last year students were used.

THE STUDENTS' WORKLOAD

The workload is more intense compared to other courses, but it corresponds to 7.5 credits. The workload is higher at the end of the course.

THE STUDENTS' RESULTS

The student passed the oral examination, but has not submitted all reports.

STUDENTS' ANSWERS TO OPEN QUESTIONS

The student was satisfied with the course, appreciated the possibility to read it individually, since it was an important course for his studies at home university (exchange student)
