

Report - MH1004 - 2019-03-06

Respondents: 1
Answer Count: 1
Answer Frequency: 100.00%

Please note that there is only one respondent to this form: the person that performs the course analysis.

Course analysis carried out by (name, e-mail):

Anders Eliasson, anderse@kth.se

COURSE DESIGN

Briefly describe the course design (learning activities, examinations) and any changes that have been implemented since the last course offering.

Valfria föreläsningar där kursinnehållet går igenom inför
Obligatoriska laborationer (5 st) och
Obligatorisk skriftlig tentamen

THE STUDENTS' WORKLOAD

Does the students' workload correspond to the expected level (40 hours/1.5 credits)? If there is a significant deviation from the expected, what can be the reason?

Från kursenkäten verkar det vara vanligt med ca 8h nedlagt arbete/vecka. Detta är ca 1/2 av vad teknologen bör lägga ned. En anledning till detta kan vara parallella projektkurser som tar mycket tid.

THE STUDENTS' RESULTS

How well have the students succeeded on the course? If there are significant differences compared to previous course offerings, what can be the reason?

På ordinarie tentamen var det 16% underkända och ett medel på 58p/100p. Ett mycket bra resultat!

OVERALL IMPRESSION

Summarize the teachers' overall impressions of the course offering in relation to students' results and their evaluation of the course, as well as in relation to the changes implemented since last course offering.

Kursen introducerar många nya begrepp och ny terminologi vilket gör att den kan upplevas som faktatung.

ANALYSIS

Is it possible to identify stronger and weaker areas in the learning environment based on the information you have gathered during the evaluation and analysis process? What can the reason for these be? Are there significant difference in experience between:

- students identifying as female and male?
 - international and national students?
 - students with or without disabilities?
-

-

PRIORITIZED COURSE DEVELOPMENT

What aspects of the course should be developed primarily? How can these aspects be developed in short and long term?

En kontinuerlig uppdatering av kursmaterialet sker hela tiden, men det borde införas ett tydligare hållbarhetstänk i kursen.

OTHER INFORMATION

Is there anything else you would like to add?

Bra och intressanta studenter med ett genuint intresse för materialfrågeställningar.
