

Komplettering :

Studenterna som får 12 poäng vid tentamen erbjuds möjligheten till komplettering till betyg E. Kompletteringen är en muntlig tenta på 30 minuter.

SCHEMA

Vecka	Avsnitt
35	Lecture 1 : Introduction to FEM Lecture 2 : Internal and external works Tutorials 1 and 2 Exercise 1
36	Lecture 3 : Stresses, strains and stress-strain relations Lecture 4 : 2D truss element Exercise 1 Exercise 2 Homework 1 : Stresses in a beam
37	Lecture 5 : 2D beam elements Lecture 6 : 4 node plane element Exercise 2 Homework 2 : Analysis of a tunnel section
38	Lecture 7: Plane and solid elements Lecture 8 : Plate and shell elements Tutorial 3 Homework 3 : Stress concentration in plates at the supports
39	Lecture 9 : Introduction to dynamic Exercise 3 Homework 4 : Analysis of a bridge
40	Lecture 10: Modelling aspects
41	Extra time
43	Examination : Friday 25 october
