Information Visualization is the art of helping people paint ideas from data.

[Information on FDK3260 Doctoral branch of this course.](#)

## Course Description

After this class, you will be able to:

1. **Design:** Collaborate *online* as groups to create fully-functioning information visualization systems that facilitate actionable insight through interactive data transformations, visual mappings, and view transformations.
2. **Defend:** Defend *online* your design choices through deep domain knowledge.

3. **Critique:** Constructively criticize *online* other information visualization systems using domain theory and practices.
4. **Demonstrate:** Explain and demonstrate *online* your information visualization systems to wide audiences, from novices to experts.
5. **Evaluate:** Elicit constructive criticism *online* from users of your information visualization systems.

To achieve this goal, you will work on two projects and a number of readings. You will get a grade (**A**>=91%, **B**>=81%, **C**>=71%, **D**>=61%, **E**>=51%, **F**<50%). These percentages are computed as follows:

Deliverable	Type	Due	Grade
1. <a href="#">Project 1</a>	Visualizing Group Matching.	Jan 28	20%
<a href="#">Group Project</a>	<b>Group</b> (Individually graded). Milestones: Proposal ( <b>Feb 6 - 10%</b> ), Hello World Demo ( <b>Feb 12- 10%</b> ), Final presentation	Multiple due	60%
2. ( <a href="https://www.kth.se/social/course/DH2321/page/final-group-projects/">https://www.kth.se/social/course/DH2321/page/final-group-projects/</a> )	( <b>Mar 10 - 10%</b> ), Final Deliverable ( <b>Mar 17 - 20%</b> ). The dates final deliverable is a web page with the working project, a video, and other material.		
3. <a href="#">Readings</a>	<b>Individual</b> (graded through short quizzes)	Weekly	20%

We will grade each project on its ability to accomplish the five learning outcomes above. We will post detailed grading criteria for each project. You will be responsible for collecting and displaying the evidence of your progress through online project reports (web pages). We will grade your readings through online surveys. Look for information on our KTH Social and Canvas pages and our Facebook group page.

## Communication

The best way to communicate with me is to send me or Marko a message here in Canvas about the course with a good subject heading. It is much better than email. Thanks! Also, we will always meet in the zoom room [visualmario](https://kth-se.zoom.us/my/visualmario) (<https://kth-se.zoom.us/my/visualmario>).
